CPSC/9TC OF THE SECRETARY
FREEDOM OF INFORMATION
2000 JUN -5 P 2:08

SUMMARY OF MEETING: Mr. King was an attendee at the NFPA World Fire Safety Congress and Exposition. During the course of the meeting, Mr. King briefly discussed issues related to electrical, fire and carbon monoxide safety with exhibitors, NFPA section members, and attendees at the Technical Committee Report Session. Committee reports were presented by committee chairman for NFPA 73 (Residential Electrical Maintenance Code for One- and Two-Family Dwellings), and NFPA 720 (Recommended Practice for the Installation of Household Carbon Monoxide [CO] Warning Equipment).

NFPA 73 was accepted by the voting NFPA membership in attendance. The NFPA 720 vote was to return the document to committee to resolve the issue of its applicability to hotels and motels.
